ROAD WORK

Who We Are

Two decades ago, one road crew in Daman set out to build South Gujarat. Today, AHT Construction leads Road, Industrial and Real Estate development across the private and government sectors.

AHT Construction Pvt. Ltd. is a pioneer of the construction industry in South Gujarat. Since 2001, we've diversified from road-building into Mining & Quarrying, Ready-Mix Concrete, and Asphalt Drum Mix plants — always guided by the same client trust that got us started.

Our Vision

"Creating super value for our clients, business associates and society — on a continuous basis."

Our Mission

"To remain a company South Gujarat trusts — built on commitment, care and faith."

AJAY H. THAKUR

Founder & Chairman

Ajay Thakur started AHT Construction in 2001 with a small road-building crew in Daman. Two decades on, that same crew has grown into a name South Gujarat trusts — building everything from factories to family homes, and running its own quarries and concrete plants along the way.

By The Numbers
